

Planting the Seeds of Sustainability

Growing a greener tomorrow for agriculture and
infrastructure industries

What We Do at **Sustainedge**

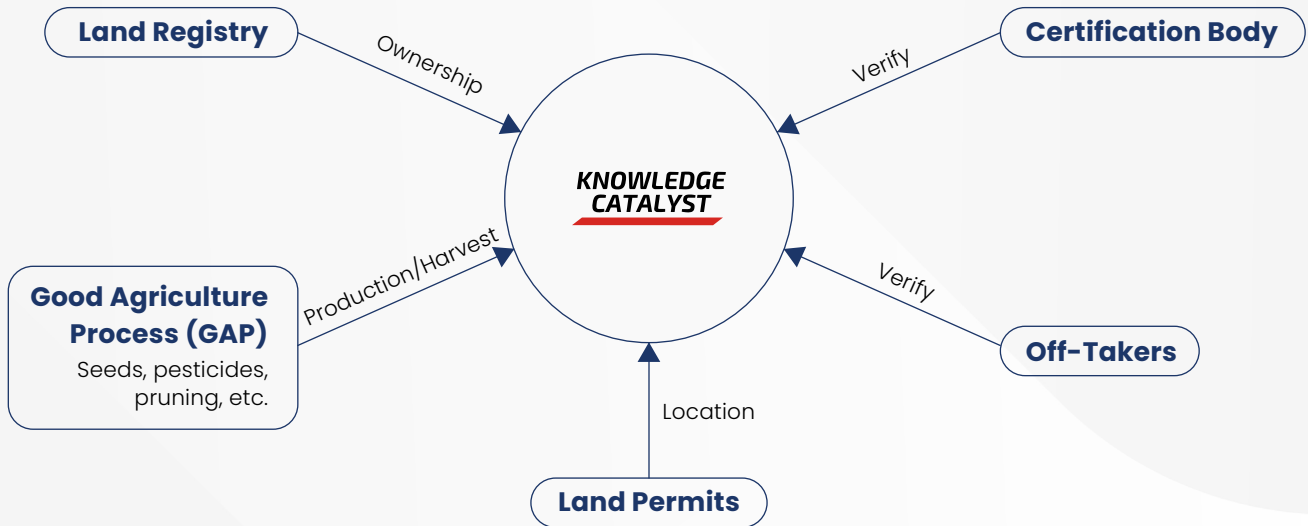

At Sustainedge, we believe in harnessing the power of technology to create a trusted digital sustainable ecosystem. Our platform is designed to streamline the process of calculating life cycle assessments and environmental analyses, issuing credentials, and fostering collaboration among stakeholders in the sustainability journey.

We aim to revolutionize how businesses and individuals engage with sustainability, providing a transparent and efficient solution for measuring, managing, and improving environmental impacts.

More About **Knowledge Catalyst**

Knowledge Catalyst Pte. Ltd. is a leading technology company headquartered in Singapore, with a subsidiary in Indonesia, dedicated to redefining digital trust. Through its flagship product, KC Trust Operating System, KC empowers institutions, organizations, government agencies, and individuals to thrive in trusted digital environments.

Driving Sustainable Practices

Sustainedge operates at the intersection of various stages of sustainability, facilitating seamless communication and verification among stakeholders:

Land Registry and Ownership

Sustainedge integrates with land registry systems to ensure transparency and accountability in land ownership, establishing a foundation for sustainable practices.

Good Agriculture Practices (GAP)

From seed selection to harvesting techniques, Sustainedge tracks every step of the agricultural process, promoting sustainable practices and minimizing environmental impact.

Land Permits and Location

Sustainedge centralizes information on land permits and geographical data to support informed decision-making regarding land usage and resource management. This includes tracking certifications, permissions, and geographical coordinates associated with sustainable land use activities.

Off-Takers Verification

Through the Sustainedge ecosystem, off-takers can verify products' sustainability credentials, promoting transparency and trust throughout the supply chain.

Certification Body Verification

Sustainedge facilitates the verification process for certification bodies, ensuring compliance with environmental standards and promoting credibility within the industry.
